About Me

I am an enthusiastic and outgoing journalism student with a passion for storytelling and uncovering new perspectives. As a confident communicator, I thrive in speaking engagements, interviews, and presenting ideas with clarity and impact. My curiosity drives me to constantly learn, adapt, and explore diverse subjects. Whether through writing or multimedia platforms, I am eager to contribute to the world of journalism and develop my skills in investigative reporting, news writing, and digital media.

Experience

Thornton-Cleveleys Football Club - Sep 2024 - Ongoing

Media Assistant

I constantly write post match reports including a considered and a follow report which is used for the club's social media and has regularly been featured in Fleetwood Weekly News. On a match day my main duties include: Pre match build up on social media, live tweet updates during the game and post match interviews. Throughout the week I will also make content for their social media platforms including off the pitch articles and creating match video highlights.

Eastern Daily Press - March 2025

Reporter

This was a five day block work placement in a fast paced and engaging news desk. During my time at the EDP I experienced the full environment as a news reporter, I was sent to cover news around the local area conducting interviews and speaking to the community about certain topics. I also shadowed professional journalists with more intense stories and provided impute in certain scenarios, this included reporting on a court inquest and venturing out of the city for intriguing council disputes in other areas of East Anglia. Most importantly I was given the opportunity to write up articles and produce digital videos that were used for the EDP's website and social media platforms.

Education

University of Central Lancashire

BA Hons Sports Journalism
